PROJECT Vestibule Renovation

BRIEF Main Floor revitalization including complete Vestibule renovation (new slate floor, new double mirrored doors on closet, refinished front door with new sheer curtain and brass hardware, new radiator cover, and new pot lights).

PRAISE *"We had a turn-of-the-century vestibule dating back to the early 1900s. We wanted to preserve the feel of the original while also modernizing it. Chris met all our expectations. He made our lives easier by showing us options and coordinating the project. We're very pleased with the results."*
